

ata\_announce\_periph

ata\_announce\_periph\_sbuf

\_ata\_announce\_periph

```
graph LR; A[ata_announce_periph] --> C[_ata_announce_periph]; B[ata_announce_periph_sbuf] --> C;
```

The diagram illustrates a relationship between three variables. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'ata\_announce\_periph' and the bottom box contains 'ata\_announce\_periph\_sbuf'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box with a black border on the right. This gray box contains the text '\_ata\_announce\_periph'. The arrows indicate that both 'ata\_announce\_periph' and 'ata\_announce\_periph\_sbuf' are associated with or point to '\_ata\_announce\_periph'.
