

ctlfeinitialize

```
graph LR; A[ctlfeinitialize] --> B[periphdriver_register];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'ctlfeinitialize'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'periphdriver_register'.

periphdriver_register
