

ctl_module_event_handler

```
graph LR; A[ctl_module_event_handler] --> B[ctl_shutdown];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'ctl_module_event_handler'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'ctl_shutdown'.

ctl_shutdown
