

softdma_channel_alloc

```
graph LR; A[softdma_channel_alloc] --> B[softdma_proc_create];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'softdma_channel_alloc'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'softdma_proc_create'.
