

dev/bwn/if_bwn_phy_lp.h

```
graph BT; A[dev/bwn/if_bwn.c] --> B[dev/bwn/if_bwn_phy_lp.h]; C[dev/bwn/if_bwn_phy_lp.c] --> B;
```

The diagram illustrates a dependency relationship between source files and a header file. At the top is a grey rectangular box containing the header file path `dev/bwn/if_bwn_phy_lp.h`. Below it are two white rectangular boxes with black borders. The left box contains `dev/bwn/if_bwn.c` and the right box contains `dev/bwn/if_bwn_phy_lp.c`. Two blue arrows originate from the bottom-right corner of the left box and the bottom-left corner of the right box, both pointing towards the bottom edge of the top box, indicating that both source files include or depend on the header file.
