

dev/bxe/bxe_stats.h

```
graph TD; A[dev/bxe/bxe_stats.h] --> B[sys/cdefs.h]; A --> C[sys/types.h];
```

The diagram illustrates a dependency structure. At the top is a grey box containing the text 'dev/bxe/bxe_stats.h'. Two blue arrows originate from the bottom of this box and point downwards to two separate white boxes. The left box contains 'sys/cdefs.h' and the right box contains 'sys/types.h'. This indicates that 'dev/bxe/bxe_stats.h' depends on both 'sys/cdefs.h' and 'sys/types.h'.

sys/cdefs.h

sys/types.h
