

t4_idma_monitor

```
graph LR; A[t4_idma_monitor] --> B[t4_sge_decode_idma_state];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 't4_idma_monitor'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 't4_sge_decode_idma_state' on two lines.
