

t4_attach

t4_resume

contact_firmware

```
graph LR; t4_attach --> contact_firmware; t4_resume --> contact_firmware;
```

The diagram illustrates a flow where two separate components, 't4_attach' and 't4_resume', both point to a single target component, 'contact_firmware'. The 't4_attach' and 't4_resume' boxes are white with black borders, while the 'contact_firmware' box is shaded gray with a black border. Blue arrows indicate the direction of the flow from the left boxes to the right box.
