

port_stats

```
graph BT; struct_mac_stats[struct_mac_stats] -.->|stats| port_stats[port_stats];
```

The diagram illustrates a pointer relationship between two data structures. At the bottom, a gray rectangular box contains the text 'struct_mac_stats'. A vertical dashed purple line extends upwards from the top center of this box. In the middle of this line, the text 'stats' is written. The dashed line terminates in a solid purple arrowhead pointing upwards towards the bottom center of a white rectangular box at the top of the diagram. This white box contains the text 'port_stats'. The overall layout is vertical and centered.
