

pmc\_syscall\_handler

```
graph LR; A[pmc_syscall_handler] --> B[pmclog_process_userlog]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'pmc\_syscall\_handler'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'pmclog\_process\_userlog'.
