

mlx4_HW2SW_SRQ_wrapper

mlx4_SW2HW_SRQ_wrapper

srq_res_start_move_to

```
graph LR; A[mlx4_HW2SW_SRQ_wrapper] --> C[srq_res_start_move_to]; B[mlx4_SW2HW_SRQ_wrapper] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes with black borders are stacked vertically. The top box contains the text 'mlx4_HW2SW_SRQ_wrapper' and the bottom box contains 'mlx4_SW2HW_SRQ_wrapper'. On the right, a single gray rectangular box with a black border contains the text 'srq_res_start_move_to'. Two blue arrows originate from the right side of the top and bottom white boxes, both pointing towards the left side of the gray box, indicating that both wrapper functions call or depend on the 'srq_res_start_move_to' function.
