

pci_reset_post

```
graph LR; A[pci_reset_post] --> B[pci_restore_state];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'pci_reset_post'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'pci_restore_state'.

pci_restore_state
