

dev/rtnw/usb/rtnw_usb_rx.h

```
graph BT; A[dev/rtnw/usb/rtnw_usb_ep.c] --> B[dev/rtnw/usb/rtnw_usb_rx.h]; C[dev/rtnw/usb/rtnw_usb_rx.c] --> B;
```

The diagram illustrates a dependency relationship between source files and a header file. At the top is a grey rectangular box containing the header file path: `dev/rtnw/usb/rtnw_usb_rx.h`. Below it are two white rectangular boxes with black borders. The left box contains `dev/rtnw/usb/rtnw_usb_ep.c` and the right box contains `dev/rtnw/usb/rtnw_usb_rx.c`. Two blue arrows originate from the bottom-right corner of the left box and the bottom-left corner of the right box, both pointing towards the bottom edge of the top box, indicating that both source files include or depend on the header file.
