

siena\_filter\_delete

siena\_filter\_tbl\_clear

siena\_filter\_clear  
\_entry

```
graph LR; A[siena_filter_delete] --> C[siena_filter_clear_entry]; B[siena_filter_tbl_clear] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box is white with a black border and contains the text 'siena\_filter\_delete'. The bottom box is also white with a black border and contains the text 'siena\_filter\_tbl\_clear'. On the right, there is a single, larger box with a gray fill and a black border, containing the text 'siena\_filter\_clear' on the top line and '\_entry' on the bottom line. Two blue arrows originate from the right side of the top-left box and the right side of the bottom-left box, both pointing towards the left side of the gray box on the right.
