

siis_ch_detach

siis_ch_suspend

siis_ch_deinit

```
graph LR; A[siis_ch_detach] --> C[siis_ch_deinit]; B[siis_ch_suspend] --> C;
```

The diagram illustrates a dependency or flow where two functions, `siis_ch_detach` and `siis_ch_suspend`, both point to a single function, `siis_ch_deinit`. The boxes for `siis_ch_detach` and `siis_ch_suspend` are white with black outlines, while the box for `siis_ch_deinit` is shaded gray with a black outline. Blue arrows indicate the direction of the relationship from the left boxes to the right box.
