

sym_dequeue_from_queue

```
graph LR; A[sym_dequeue_from_queue] --> B[sym_ccb_from_dsa]; A --> C[sym_set_cam_status];
```

The diagram illustrates a flow from a central node to two target nodes. The central node, 'sym_dequeue_from_queue', is highlighted with a grey background. Two blue arrows originate from its right side, pointing to 'sym_ccb_from_dsa' (top) and 'sym_set_cam_status' (bottom). All nodes are rectangular boxes with black outlines.
