

sym\_pci\_attach

```
graph LR; A[sym_pci_attach] --> B[sym_read_nvram];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'sym\_pci\_attach'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'sym\_read\_nvram'.

sym\_read\_nvram
