

sym_pci_attach

```
graph LR; A[sym_pci_attach] --> B[__sym_calloc_dma]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'sym_pci_attach'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text '__sym_calloc_dma'.
