

sctty_close

```
graph LR; A[sctty_close] --> B[sc_free_history_buffer];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'sctty_close'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'sc_free_history_buffer'.
