

dev/tdfx/tdfx_pci.h

```
graph TD; A[dev/tdfx/tdfx_pci.h] --> B[sys/proc.h]; A --> C[sys/conf.h];
```

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the text 'dev/tdfx/tdfx_pci.h'. Two blue arrows originate from the bottom edge of this box, pointing downwards and outwards to two separate white rectangular boxes. The left box contains the text 'sys/proc.h' and the right box contains the text 'sys/conf.h'. This visualizes that the 'dev/tdfx/tdfx_pci.h' header file includes or depends on both 'sys/proc.h' and 'sys/conf.h'.

sys/proc.h

sys/conf.h
