

ehci_start_dma_delay

```
graph LR; A[ehci_start_dma_delay] --> B[ehci_start_dma_delay_second];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'ehci_start_dma_delay'. The right box is gray with a black border and contains the text 'ehci_start_dma_delay' on the top line and '_second' on the bottom line.
