

dev/veriexec/veriexec  
\_ioctl.h

```
graph TD; A[dev/veriexec/veriexec_ioctl.h] --> B[sys/param.h]; A --> C[security/mac_veriexec/mac_veriexec.h];
```

The diagram illustrates the dependencies of the header file `dev/veriexec/veriexec_ioctl.h`. It is shown in a grey box at the top. Two blue arrows point downwards from its bottom edge to two other header files: `sys/param.h` (in a white box on the left) and `security/mac_veriexec/mac_veriexec.h` (in a white box on the right).

sys/param.h
