

vtpci_legacy_attach

vtpci_modern_attach

vtpci_add_child

```
graph LR; A[vtpci_legacy_attach] --> C[vtpci_add_child]; B[vtpci_modern_attach] --> C;
```

The diagram illustrates a flow where two separate functions, vtpci_legacy_attach and vtpci_modern_attach, both point to a single target function, vtpci_add_child. The arrows are blue and point from the left boxes to the right box.
