

vtpci_modern_probe

```
graph LR; A[vtpci_modern_probe] --> B[vtpci_modern_probe_configs]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'vtpci_modern_probe'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'vtpci_modern_probe_configs'.
