

vmci\_qpair\_enqueue

```
graph LR; A[vmci_qpair_enqueue] --> B[vmci_memcpy_to_queue_local];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'vmci\_qpair\_enqueue'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'vmci\_memcpy\_to\_queue\_local' on two lines.

vmci\_memcpy\_to\_queue
