

g_mountver_config

```
graph LR; A[g_mountver_config] --> B[g_mountver_ctl_create];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'g_mountver_config'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'g_mountver_ctl_create'.

g_mountver_ctl_create
