The diagram illustrates a dependency structure. At the top is a grey rectangular box containing the header file path `geom/uzip/g_uzip_wrkthr.h`. Below it are two white rectangular boxes. The left box contains `geom/uzip/g_uzip.c` and the right box contains `geom/uzip/g_uzip_wrkthr.c`. Two blue arrows point from the bottom corners of these two boxes towards the bottom corners of the top box, indicating that both source files depend on the header file.
