

fail_point_eval_nontrivial

```
graph LR; A[fail_point_eval_nontrivial] --> B[fail_point_pause];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'fail_point_eval_nontrivial'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'fail_point_pause'.

fail_point_pause
