

eventhandler\_register

```
graph LR; A[eventhandler_register] --> B[eventhandler_register_internal]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'eventhandler\_register'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'eventhandler\_register' on the top line and '\_internal' on the bottom line.
