

cpu_initclocks_bsp

sysctl_kern_eventtimer
_timer

et_init

```
graph LR; A[cpu_initclocks_bsp] --> C[et_init]; B[sysctl_kern_eventtimer_timer] --> C;
```

The diagram illustrates the dependencies of the `et_init` function. Two boxes on the left, representing source files, have blue arrows pointing to a gray box on the right representing the target function. The top box is labeled `cpu_initclocks_bsp` and the bottom box is labeled `sysctl_kern_eventtimer_timer`. The target box is labeled `et_init`.
