

ng_iface_constructor

```
graph LR; A[ng_iface_constructor] --> B[ng_iface_start];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'ng_iface_constructor'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'ng_iface_start'.
