

sctp\_common\_input\_processing

```
graph LR; A[sctp_common_input_processing] --> B[sctp_send_ecn_echo];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'sctp\_common\_input\_processing'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'sctp\_send\_ecn\_echo'.
