

sctp_paramhdr

```
graph BT; A[sctp_paramhdr]; B[sctp_ipv4addr_param]; B -.->|ph| A;
```

The diagram illustrates a pointer relationship between two data structures. At the top is a white rectangular box labeled 'sctp_paramhdr'. Below it is a gray rectangular box labeled 'sctp_ipv4addr_param'. A dashed purple arrow points from the top of the gray box to the bottom of the white box. The label 'ph' is positioned to the right of the arrow's shaft.
