

tcp_tw_2msl_stop

```
graph LR; A[tcp_tw_2msl_stop] --> B[in_pcbrele_wlocked]
```

A diagram showing a dependency between two variables. On the left is a gray rectangular box containing the text 'tcp_tw_2msl_stop'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right containing the text 'in_pcbrele_wlocked'. Both boxes have a black border.

in_pcbrele_wlocked
