

sctp\_inpcb\_alloc

```
graph LR; A[sctp_inpcb_alloc] --> B[sctp_default_supported_hmaclist]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'sctp\_inpcb\_alloc'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'sctp\_default\_supported\_hmaclist'.
