

ktls\_ocf\_try

```
graph LR; A[ktls_ocf_try] --> B[ktls_ocf_tls13_aead_decrypt]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is white with a black border and contains the text 'ktls\_ocf\_try'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'ktls\_ocf\_tls13\_aead\_decrypt' on two lines.

ktls\_ocf\_tls13\_aead
